

Dheeraj jha

Experienced DevOps & fullstack dev with 9+ YOE

✉ Dheeraj@thedijje.com ☎ +918826810280 in @thedijje ● @thedijje

Experience summery

- **CI/CD Mastery:** Extensive experience with CI/CD pipelines and automation tools like GitHub Actions, GitLab-CI, Jenkins, and AWS CodeDeploy.
- **Infrastructure Automation:** Proficient in using Terraform for automating infrastructure setup, configuration, and application deployment.
- **Docker and Container Management:** Limited but practical experience in containerising applications, managing dependencies, packaging, and deployments.
- **Cloud Migration Skills:** Experienced in both greenfield and brownfield cloud setups, including migrations and phase-wise expansions.
- **Advanced Scripting and Automation:** In-depth automation capabilities using Python and Bash for managing application stacks and lifecycles.
- **Application Monitoring Knowledge:** Solid understanding of monitoring, alerting strategies, and log analysis with tools like Prometheus and Grafana.
- **System Design Expertise:** Proficient in creating scalable designs for diverse applications, from mobile apps to complex dashboards, from prototyping to scaling.
- **Innovative Mindset:** Focus on simplifying complex challenges and automating routine tasks for improved problem-solving.
- **Leadership and Cross-Functional Communication:** Over five years in leadership roles, managing teams of 15+, with strong skills in cross-functional team communication and project management.
- **Comprehensive Development Experience:** Over 9 years of end-to-end product development lifecycle experience, enhancing broad technical understanding.

Skills

DevOps tools (Ansible, Jenkins, Gitlab-CI, CI/CD, Terraform, Code-deploy, Docker, Kubernetes)

AWS (RDS, EC2, Cloudfront, ELB, SES, SNS, SQS, API Gateway, Lambda, LightSail, AWS CLI, AWS SDK, IAM, Cost management.)

Scripting Languages (PHP, Laravel, Codeigniter3, Python, Bash)

Databases (MySQL, MongoDB, Redis) | **Observiblity** (ELK, Prometheus, Grafana, Cloudwatch)

Other skills (Git, Bash, Python, Container, Networking, Firewall, DNS, Routing,)

Professional Experience

Devops consultant, *Anant Technologies*

10/2023 – present | Remote, US

- Took handover of DevOps process and **optimised architecture** of various client services
- Used Jenkins to automate deployment process of various cloud based apps
- Setup monitoring tools, **automated recovery and setup zero downtime infrastructure.**
- Created POC of **custom GPT using ChromaDB, OpenAI, Speech to Text** to achieve AI based Patient management app.

DevOps Engineer and Tech lead, *Reevalo SaaS*

2021 – 2023 | Remote, FR

- Performed cloud **migration** from **on-prem to fully cloud hosted infrastructure.**
- **Saved 40-50% of Cloud cost** while scaling up the process by **optimising cloud and process internals.**
- **Saved 95% of the time** by fully **automating the data processing** from source to destination across various process and applications.
- **Created custom process management tool** with **python** & **bash** helped in **managing diverse scraping process** and collecting metrics via API resulted in fully **automation of the 100s of pipeline.**
- **Developed central dashboards** using Codeigniter framework resulting in **visualising custom data-sets** from 10+ different processes, thus being single **transparent dashboard** for entire IT process.
- Worked with Developer team to guide on **API Optimization** to **reduce latency.**

Lead Developer, *CTE International pvt ltd*

08/2017 – 12/2020 | Gurugram, IN

- **Scaled up eCommerce** platform by **optimising traffic** and speed by multiple factors using AWS resources.
- **Automated Deployments, scaling out** and scaling up of application, used various services of AWS to **diversify monolithic application** into various managed services.

Fullstack PHP Developer,

12/2015 – 08/2017 | Gurugram, IN

Incisiv.io(Formerly Winculum services)

- Took handover of Entire IT infrastructure in a short span of time with a plan for expansion.
- Potentially saved 100s of hours of work/month by developing a multi-tier research tool thus scaling customer delivery by 5x per month.
- **Fully automated** and managed **devops process of internal tools.**

Fullstack PHP Developer, *Netmaxims Technology*

05/2015 – 12/2015 | Faridabad, IN

- Created Multiple In-house tools for improving productivity and libraries to speed up the development/coding process by 30%, Improved system design to scale up the system.
- Improve and **automated cloud migration** of website with heavy dataset and with **zero downtime.**

Education

Bachelor of Technology - Computer science,
Kurukshetra university

2010 – 2014 | Ambala, IN
